ABOUT TIME

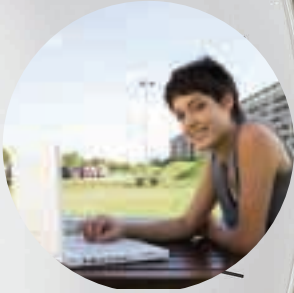

for ATMs to do more

It's convenient

It's the speed

It's the proof of deposit

It's the simplicity

It's always a good time to bank with Wincor Nixdorf.

Deposit automation is here.

Introducing the ProCash series from Wincor Nixdorf, the only proven ATM that accepts bulk check deposits—without an envelope. Customers can deposit up to 50 checks or cash notes at one time through a single deposit slot. The ATM then captures images of the checks and imprints them on a photo receipt. Today, banking customers expect anywhere, anytime banking, and Wincor Nixdorf helps you deliver. **And, to make it easier for banks and credit unions like yours, we have created a packaged solution to help you get up and running right out of the box.**

No envelope? No problem.

Bulk deposit automation is an ideal solution for financial institutions trying to expand services. It provides an alternative avenue through which your bank or credit union can accept deposits, speed transactions and build lasting customer relationships.

The business benefits of bulk deposit automation are clear.

- Expands the level of service available to customers
- Allows real-time ATM deposits
- Improves transaction speed
- Reduces the manual intervention costs of transporting and processing deposits
- Eliminates costly fraud from “empty envelope” deposits
- Offers another opportunity to interact with customers

“Wincor Nixdorf’s outstanding Bulk Check Deposit ATM ... is *giving customers unprecedented control of how, when and where financial business is conducted*”

– Wincor Nixdorf Named Top 25 Innovator by Bank Technology News

Wincor Nixdorf makes it easier than ever to provide **best-in-class technology and security.**

Powered by German engineering and precision manufacturing, the ProCash series is the result of four generations of successful Cash/Check Deposit Module (CCDM) ATMs by Wincor Nixdorf. While competitors are just getting out of the starting gates with 1st generation solutions, Wincor Nixdorf is leading the pack with the largest installed base of bulk check deposit ATMs worldwide.

Wincor Nixdorf's ProCash ATMs conform to industry standard check imaging formats and host connectivity protocols. Additionally, ProCash ATMs can be integrated easily with nearly all host providers and networks in the US.

Reliable Service and Support

When you buy from Wincor Nixdorf, our professional services staff is dedicated to ensuring your implementation goes smoothly and that your ATMs integrate effectively with your existing infrastructure. Once you're up and running, Wincor Nixdorf's experienced technicians are available around the clock to provide service and support to keep everything operating seamlessly.

Key Wincor Nixdorf ATM Features

- *Single cash/check acceptor*
- *Most reliable and proven technology (highest uptime availability/lowest jam rates)*
- *Advanced design (environment friendly manufacturing process/sophisticated noise reduction)*
- *User-friendly ergonomics*

*It's about time. My time.
No more rushing across
town or leaving the store
when I'm busy.*

Finally, a bulk deposit solution that's fast and easy to use and has a **track record of success.**

Unlike ATMs that require different slots for cash and checks, Wincor Nixdorf ATMs process multiple checks or cash through a single slot. No deposit slips, multiple-check feeds or envelopes are required. **And it's fast—our ATMs can scan three bills per second and one check per second.**

It's easy to integrate with your existing tools and back-end infrastructure.

The solution:

- Comes complete with all necessary software, including standard, pre-defined screens and transaction flow for the complete ATM transaction set
- Optional multiple languages that can be activated without host dependency
- Utilizes the same operator user interface as other standard ATMs
- Fully emulates standard host protocols

Customers appreciate:

- Opportunity for faster access to deposited funds
- The freedom of anytime ATM deposits
- **The confidence of a photo receipt**

*Wincor Nixdorf is ranked #2 in worldwide ATM Shipments**

*2008 Study by Retail Banking Research (RBR)

The only PROVEN bulk deposit automation ATM, ProCash series can accept up to 50 checks at one time. Got cash? The same bulk deposit slot can accept 50 bills in mixed denominations.

Designed for financial institutions that do **big business.**

Our expertise lies in producing and supplying advanced IT systems through delivering complete solutions comprised of hardware, software and associated services. To that end, we've developed everything you need to provide bulk deposit automation services.

Our complete package includes:

- **Hardware:** Free-standing or built-in, outdoor or lobby, front or rear-loaded.
- **Software:** Every ATM comes equipped with a full suite of software designed to offer deposit automation to your customers.
- **Integration:** Our dedicated technical team will make sure that your new ATM functions seamlessly as part of your existing infrastructure.
- **Installation:** Good planning and experienced technicians mean the installation and set-up is fast and easy. Our on-time integration and delivery are planned to provide minimal inconvenience to branches and customers.
- **Maintenance:** After your ATMs are installed, our experienced professional services staff is available any time you have a question, need service or want to modify your existing machines.
- **Remote Monitoring:** Central management of your ATM fleet. With 24x7 remote monitoring and detailed reporting, managed services enables you to maintain and keep your ATM replenished and running smoothly.

Smart solutions to fit every situation.

Whether you want ATMs inside or outside, drive-through or walk-up, Wincor Nixdorf has deposit automation solutions that fit your branches and your budget.

“... Customers who make deposits two or three times a week can do it off hours at their convenience and get the same result as walking in and using a teller.”

Robert Kramer, President, Westbound Bank
quoted in the Houston Business Journal

ProCash 2100xe

A fully functional indoor ATM that can be freestanding or built-in, either half through the wall or fully integrated with a frame.

ProCash 2150xe

This discreet, full-function ATM offers through-the-wall installation for outdoor or lobby use.

ProCash 2250xe

A compact, through-the-wall profile, this ATM was designed specifically for drive-up convenience.

ProCash 2350xe

This freestanding drive-up system offers around-the-clock service even under difficult conditions. Designed to be impervious to weather and vandalism, it offers unmatched durability and security.

It's about time. The Wincor Nixdorf ATM quickly processes my transaction and gets me on my way in a matter of seconds.

***Your timing couldn't
be better.***
