# CDS9

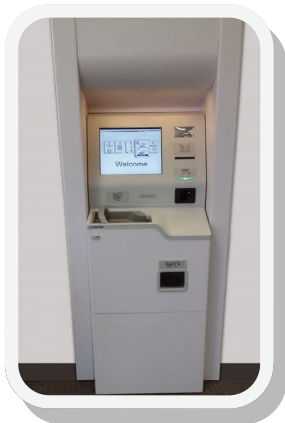

The 4th generation of Coin Deposit Systems

Changes the way you look at Branch Automation

## CDS9 changes the way you look at Branch Automation

Handling coin can be a determining factor in account retention and acquisition but it can also be a time consuming and costly internal dispute. However, through automation it can also be a simple and efficient procedure with minimal staff involvement, while providing optimal accuracy. The CDS9 enables complete automation, switching your focus from coin management to value creating services.

### 40 years of experience in Coin Processing Solutions

SCAN COIN was founded in 1966 and is the leading supplier of cash handling systems, delivering innovative solutions of the highest quality. The extended experience has led to in-depth knowledge of customized solutions which is now put into the fourth generation of self-service machines, CDS9. It offers the financial institution a secure and reliable coin solution in a modern award winning design.

# A financial institutions optimal coin manager

CDS9 is the premium self-service partner for complete automation of coin deposits, maximizing the opportunity for private as well as retail business. You get a secure and reliable solution with the latest technology in a modern design, combined with intuitive software with optimized features. Connectivity allows for direct deposit, enabling you to take your business to the next level.

## ▶ Save money through an efficient user process

The complete automation of coin handling shows fast returns through increased efficiency, staff savings and improved cash flows, that can easily be integrated into CIT routines.

## ▶ Give your staff a more profitable role

CDS9 releases the staff from manual coin handling, enabling them to focus on more profitable consulting-based services.

## ▶ Offer your account holders 24 hour service

Self-service around the clock access maximizes flexibility by improving the accessibility of smooth and quick transactions.

## ▶ Offer security with proven technology

Reliability and durability are formed from many years of experience in the financial industries throughout the world.

## ▶ Designed for maximum ease of use

The interface between the operator and the machine has been carefully designed to offer a user friendly experience and is well suited for people with disabilities. The design is the winner of the 2014 Red Dot award.

## ▶ Create a modern lobby and strengthen your brand

Customize the CDS9 to include your corporate brand and create an innovative lobby in line with your graphic profile.

## ▶ Stay connected

On-line integration is available using our Core Connect middleware software. It connects the CDS930 to the financial institutions core platform for real-time direct deposits. Remote monitoring and electronic notification service is also available.

## Winner of the prestigious Red Dot award

You have proved your know-how and competed with the best in your industry in one of the largest competitions... The clear and discreet design of the CDS9 radiates trustworthiness, user-friendliness and reliability.
